**KEN HU**

DEPUTY CHAIRMAN OF HUAWEI

## HUAWEI & THE TECHNOLOGY REVOLUTION / KEN HU

**Last year Huawei sold more smartphones than Apple, reporting over \$100 billion in revenue and cementing its position as the world's largest provider of information and communications technology. But Huawei's success has not come without struggle. In recent times, the company has become a central point of political conflict between the USA and China.**

In this unique gathering of top business leaders in Zurich, we ask Huawei's Deputy Chairman, Mr. Ken Hu, to shed light on the social and economic impact of today's technology revolution. Ken will speak about digital technologies such as 5G, IoT, artificial intelligence and cloud, exploring their social impact and how organizations can better leverage them to grow and prosper. In the discussion that follows, we will ask him to elaborate on how Huawei is adapting its strategy to accommodate today's rapidly changing geopolitical landscape.

Ken Hu is the Deputy Chairman of Huawei's Board of Directors, and member of the Executive Management Team. With nearly 30 years of telecoms experience, Ken helps set the strategic direction of the company and has been instrumental to Huawei's growth in global markets. Since 2011, Ken Hu acts as Chairman of Huawei Global Cyber Security and Privacy Protection Committee (GSPC), which is the overall governance organization of Huawei group's practice on security and privacy.

# ASIA LEADERS SERIES

 SWITZERLAND

## ABOUT THE ASIA LEADERS SERIES®

The Asia Leaders Series is a quarterly event programme taking place in Zurich, Switzerland. It has rapidly become one of Europe's leading initiatives for establishing a shared understanding between leaders of large companies in Europe, and their counterparts in Asia. The series focuses on economic, political, and social themes, with the goal of contributing to the preservation and development of responsible globalization through the exchange of knowledge and insights between top leaders operating in the Europe-Asia corridor.

## FORMAT

The Series involves four separate evening events each year in Zurich, held quarterly in Spring, Summer, Autumn and Winter. Each event hosts one of Asia's most influential business leaders, and is limited to 75 guests. Events are always held at either the Baur au Lac or the Savoy, and are followed by a private dinner with our guest speaker, for 12-14 carefully selected leaders.
