

China Mobile International (Switzerland)

For over seven decades, China-Switzerland bilateral relations have continually progressed. Today, both countries are entering a new era of pursuing all-round development. On the 70th anniversary of the establishment of diplomatic relations between China and Switzerland, CMI Switzerland is about to launch in Geneva, to provide comprehensive telecommunications solutions and empower the international development of enterprises and operators in Europe and Asia. As one of the world's leading telecommunications companies, CMI will strive for further cooperation with the Swiss telecoms industry.

CMI currently owns over 70 submarine and terrestrial cable resources worldwide. It has more than 170 points of presence (PoPs) outside China, of which 55 are in Europe and cover major cities in Switzerland, providing data transmission, IPVPN and Internet services. Leveraging on CMI's global network infrastructure, CMI Switzerland provides comprehensive telecommunications services, including IPLC/IEPL, MPLS VPN, IP Transit, SD-WAN, IDC, CDN, ICT, Voice and IoT services.

Since launching mCloud, a cloud-network platform that provides comprehensive, high-quality, and efficient one-stop services with massive cloud network applications, CMI has helped thousands of customers accelerate their move to the Cloud and enjoy the benefits of digital transformation.

To further improve our customers' user experience, CMI Switzerland will enhance the cooperation with local operators, support the interconnectivity of international telecommunications infrastructure, as well as increasing the scale and quality of global network connections.

At the same time, we will exchange our experience of emerging technologies such as 5G networks and the IoT with partners in Switzerland. Using local multilingual teams, CMI Switzerland will provide high-quality telecommunications services for Chinese enterprises to develop business in Switzerland. For Swiss enterprises and operators aiming to expand internationally, CMI Switzerland will work as a bridge that enables customers to benefit from both an efficient local service and CMI's vast international network connecting Asia and Europe.
