

**Established**

成立于
2018

Headquarters

总部位于
China
中国

Active in

主要市场
China, America
中国、美国

Turnover

营业额
1,000,000 – 5,000,000RMB
1,000,000~5,000,000 人民币

Sub-sector

领域
Life Science / Biological Sample/
Human Genetic Resources
Technical Service
生命科学、生物样本、人类遗传资源技术服务

Target List

商业目标
Investment/Research and
Development/ Production/
Sales/Services
投资、研发、生产、销售、服务

NATIONAL LIFE SCIENCE CO.,LTD.**国源生命科学有限公司**

National Life Science is a specialized biological sample management company focusing on the storage, protection, sharing, application and service of human genetic resources and an innovative high-tech enterprise based on human genetic resources production technology, information realization achievement transformation and technical services.

国源生命科学有限公司是围绕生物样本包括人类遗传资源的存储、保护、共享、应用、服务的专业化生物样本管理公司和基于人类遗传资源产生的技术、信息实现成果转化及技术服务的创新型高新技术企业。

Our business**业务**

The human genetic resource database, human genetic resource big data center and national super computing data analysis platform built and operated by National Life Science Co., Ltd. can provide safe and legal big data and data analysis services for enterprises engaged in biomedical innovation at home and abroad

国源生命科学有限公司建设运营的人类遗传资源库、人类遗传资源大数据中心、及国家超级计算数据分析平台可为国内外从事生物医药创新的企业提供安全合法的生物样本和各类疾病的队列大数据和数据分析服务。

Products and Services: Design consulting services for biological sample banks, biological sample database information management system (National Biobank), cold chain monitoring management system (NationalEM), laboratory information management system (NationalLIMS), cryopreservation equipment and consumables, pathological quality control information management system, all Automatic digital slice scanner, artificial intelligence pathology-assisted diagnosis service, information service, third-party life bank, biomedical big data storage, mining, analysis and utilization

产品和服务: 生物样本库的设计咨询服务, 生物样本库信息管理系统 (NationalBiobank), 冷链监控管理系统 (NationalEM), 实验室信息管理系统 (NationalLIMS), 冻存设备及耗材, 病理质控信息管理系统, 全自动数字切片扫描仪, 人工智能病理辅助诊断服务, 信息服务, 第三方生命银行, 生物医疗大数据的存储、挖掘、分析和利用

Our value proposition**价值定位**

Natioal Life Science provides services to the global life health field.

Our Vision: contribute to the cause of human health.
国源生命科学有限公司面向全球生命健康领域提供服务。

愿景: 为人类健康事业贡献一切力量。

Our track record and achievements**业绩和成就**

Five copyrights of computer software ,five patents(pending)
荣获五项计算机软件著作权, 五项专利申请中

Trademarks: National Life Science
创建: 国源生命科学商标 (申请中)

Basis for establishment: ISO 9001, ISO15189, ISO/DIS 20387, Biorepositories and Biospecimen Research Branch (BBRB), ISBR Connecting Repositories Globally through Best Practices (2018), NCI Biological sample library best practices (2016)

建设基础: ISO 9001, ISO15189, ISO/DIS 20387 第一个生物样本库国际标准, BBRB 生物储存与生物标本研究, ISBER 生物样本库最佳实践 (2018), NCI 生物样本库最佳实践 (2016)
