

YINGSHENG BIOTECH 山东英盛生物技术有限公司

Yingsheng Biotechnology, founded in 2009, is located at Jinan high-tech developmental zone (life science industry park, medicine valley industry park, qilu industry park and yingsheng industry park under construction). We have been mainly devoted to researching, producing, selling in vitro diagnostic reagent(IVD Reagents) based on gene testing platform and mass spectrometry platform since the founding of the company, covering several fields of providing services for human health such as neonatal inherited metabolic diseases screening and disease prevention.

英盛生物，成立于 2009 年，研发、生产基地位于济南市高新技术开发区（生命科学城产业园、药谷产业园、齐鲁产业园和在建 50 亩英盛产业园），自创立以来一直以自主研发、生产、销售体外诊断试剂和医疗设备为主，围绕代谢组学和遗传组学搭建基因检测平台和质谱检测平台，涵盖了出生缺陷筛查，疾病预防，人类健康服务领域。

Our products 产品

Yingsheng's product line includes ultra-high performance liquid chromatography tandem mass spectrometry detection system, mass spectrometer automatic intelligent processing platform, neonatal 45 genetic metabolic disease screening reagents, vitamin 14 determination reagents, deafness gene detection series kit, HLA-B27 Test kits, etc., and develop support software to reach the international advanced level.

英盛的产品线包括超高效液相色谱串联质谱检测系统、质谱全自动智能处理平台、新生儿 45 项遗传代谢病筛查试剂、维生素 14 项测定试剂，耳聋基因检测试剂、HLA-B27 检测试剂盒等，并研发支持软件，达到国际先进水平。

1. Triple quadrupole rod tandem mass spectrometry system 1) Clinical application: vitamin 14 determination reagents, neonatal 48 genetic metabolic disease screening reagents, human hormone determination reagents, blood concentration determination, etc. 2) Market forecast: 1000 units/year, 3.5 billion RMB/year.

1.三重四级杆串联质谱系统 1)临床应用方向：维生素 14 项测定试剂、新生儿 48 项筛查试剂、人体激素测定试剂、血药浓度测定等。2)市场预估：1000 台/年，35 亿人民币/年。

2. Intelligent pre-processing platform 1) Application: clinical applications, pharmaceutical companies, drug regulatory agencies, police security, CDC etc.2) Market estimate: 1,000 units/year, 1 billion RMB/year.

2.智能前处理平台 1) 应用方向：临床应用、药厂、药监机构、警察安检、疾控中心等。2) 市场预估：1000 台/年,10 亿人民币/年。

3. The reagents of gene detection platform 1) Clinical application: Hereditary deafness gene detection, HLA-B27 ankylosing spondylitis, detection of folate metabolism, etc.

3.基因检测平台相关试剂 1) 临床应用方向：遗传性耳聋基因检测、HLA-B27 强直性脊柱炎、叶酸代谢能力检测等

Cooperation needs 合作需求

1. Dry blood sample automatic puncher 1.全自动血片打孔机

2. Inductively Coupled Plasma -Mass Spectrometry 2. 电感耦合等离子体质谱仪

3. Automated liquid handling workstation 3.智能化前处理平台/自动化液体处理工作站

4.LC-MS/MS Spare parts 4.三重四级杆质谱和超高效液相色谱零配件

5. Newborn Screening System With automated fluorescence platform 5.全自动荧光新生儿筛查系统

6.Cooperation: Visit Bonaduz and cooperate with Hamilton to introduce the world's most advanced technologies and concepts to China, promote the development of precision medical artificial intelligence, and establish a production base.

6.合作商洽：拜访 Bonaduz，与哈美顿深入的合作，将世界最先进的技术和理念引入到中国，促进精准医疗人工智能的技术发展，合资建立生产基地。

Our track record and achievements 业绩和成就

After years of honed and precipitation, yingsheng biotechnology accumulated abundant patents, medical device registration certificates, and experiences of national government projects. So far, yingsheng biotechnology has gained dozens of patented technology, seven software copyright, nineteen CFDA registration certificates, and established three industry standards and one national standard, And has global ISO9001 and ISO13485 certificates!

英盛历经多年的沉淀，积累了丰富的专利、医疗器械注册证书、国家政府项目申报等实战经验。截止目前已获得几十项国家专利和 7 项软件著作权，以及 19 项 CFDA 注册证书，建立 3 个行业标准和 1 个国家标准，并且拥有全球 ISO9001 和 ISO13485 证书！

Established
成立于
2009

Headquarters
总部位于
Shandong China
中国-山东

Active in
主要市场
China, India, Southeast Asia, Africa
Market to be developed : Americas,
Europe
中国、印度、东南亚、非洲
待开拓市场: 美洲、欧洲

Turnover
营业额
360 million RMB,
1 billion RMB in 2019
3.6 亿 RMB, 2019 年 10 亿 RMB

Sub-sector
领域
Life Sciences / Health Related
Biotechnology, Precision Medicine,
Artificial Intelligence
生命科学/健康相关生物技术、精准医疗、人工智能

Target List
商业目标
Direct Sales, Joint R&D, OEM sales
and consultant agency
直销、联合研发、OEM 销售和咨询顾问
